We are here in Anza and hit the ground running! - Our 10 acre facility is perfect for our training program - we are thrilled and working hard.

Being a John Lyons Certified Trainer, my strength has been in building a strong foundation which benefits starting young horses as well as working with young or old horses in resolving issues or “problems”.

When a horse is bucking or rearing, refuses obstacles, kicks or strikes for instance, those are just symptoms of something else. The actual cause stems from fear, aggression or lack of respect.

Once you fix the cause, the fear or lack of respect, then the symptoms go away – again, building on a strong foundation by being a leader your horse wants to follow.

Recently I have partnered with Rick Hoffman whose strength is in finishing which means putting an incredible handle on your horse. Rick is a winning competitor in the Extreme Cowboy Association and competes nationwide and trained under Al Dunning who is one of the top cutting and reining trainers. So together we have combined our education and skills and offer start to finish training for your horse at one facility. We just moved to our own 10 acre training and event facility in Anza where we offer colt starting, resolving behavioral issues and events such as our Triple Crown Novice Extreme Cowboy Race Buckle Series, Competition Obstacle Course, training your horse on cows utilizing live cattle as well as the mechanical cow by CowTrac™ and Trail riding for the riders who compete in ACTHA and CSHA.

Open House Bar-B-Que and Problem Solving
Demonstration

January 22nd - 9-5

We are having an open house as a welcome to new friends as well as old friends.

We are asking that anyone who has a "Problem Horse" or issue that you have not been able to resolve - submit to me via E-mail - the age, breed, and brief history of the issue that you are experiencing with your horse. Rick and I will select 2 horses and will do a demonstration on Problem Solving using your horse at our Open House.
